## **TECHNOLOGY TO GET MORE DONE — WHILE KEEPING YOU COMPLIANT AND COST EFFECTIVE.**

The Blue Marble Global Payroll solution is a web-based platform for global payroll. Our global network provides payroll services in a unified system with aggregated reporting. Blue Marble offers treasury management, providing seamless currency exchange solutions by partnering with the world's leading financial institutions.

Technology is at the forefront of all we do – Say good-bye to email and faxing your payroll information to multiple payroll vendors. Where possible, we offer a leading SaaS solution in every country we service. We also have developed our own web-based aggregated reporting solution that enables clients to not only access all their payroll providers in one location, but see a consolidated view of payroll costs across countries as well.

- Process your global payroll
- Access all employee and payroll data
- Run aggregated employee and payroll reports
- Organize your multinational payroll with our calendar wizard

About Blue Marble:

Blue Marble Payroll was founded in 2013 by a team of industry professionals who were instrumental in creating one of the leading payroll and HR providers in the United States. We believe in "Unifying the World of Payroll" and our mission is to help small and mid-sized companies streamline their international payroll processes.

Blue Marble uses the same formula internationally that led to our success in the United States. We provide industry-leading technology backed by exceptional service at a reasonable cost. This is accomplished by forming partnerships with best-of-breed providers in every country that we serve and linking them together with Blue Marble's proprietary web-based technology.
